

# FASER-PLAST POLAND sp. z o.o.

Rolling stock

FASERPLAST has been producing components and systems made from composite materials since 1972, thus developing customer-specific overall solutions. From development and construction to the finished assembly, we offer everything from a single source - with the highest quality and reliability.

Our customers benefit from our speed, which is decisive for the market, our proven quality and an excellent price-performance ratio thanks to our production sites in Switzerland and Poland.

FASERPLAST is privately owned, owner-managed and focuses on long-term partnership-based cooperation.
