

ZUT Wągrowiec

Rolling stock

We carry out comprehensive repairs and modernizations of various types of railway vehicles, including machines for the construction and maintenance of railway infrastructure, and tanks for the transport of hazardous materials

We offer services in the field of purchase, sale and rental of vehicles to both domestic and foreign entities. We have:

- the authorization of the TDT's (Technical Transport Supervision Bureau) Director to manufacture, modernize and repair road tankers and tank wagons for the transport of dangerous goods according to ADR / RID
- the certificate of compliance for the entity in charge of maintenance (ECM) issued by the President of the Railway Transport Office, as the owner and as a maintenance workshop (MW) in the scope of: freight carriages, locomotives, passenger carriages, track machines, special carriages for the transport of dangerous goods
- ISO 9001: 2008 quality certificate issued by TÜV Rheinland for the production, modernization, repair and inspection of rolling stock, including RID and ADR tankers.

The high quality of our services is confirmed by the certificate of welding of rail vehicles and their components in accordance with the PN-EN 15085-2 standard and the quality certificate for welding metal materials in accordance with the PN-EN ISO 3834-2 standard.
