

Energo-Mechanik Sp. z o.o.

Rolling stock | Production

Energomechanik Sp. z o.o. Fablok Branch in Chrzanów is a part of Martech Group. It relies on the competences and experience of the First Locomotive Factory in Poland "FABLOK" S.A. with origins dating back to 1919. Fablok commenced its activity from production of steam locomotives, gradually extending the range of its products by diesel locomotives, caterpillars, wheel sets, axles, transmissions and gears, forgings and modernisation of locomotives.

Now, Fablok Branch in Chrzanów offers:

- drive wheel sets and rolling assemblies for diesel locomotives, electric locomotives, EMU, metro, and rail buses
- wheel sets, rolling assemblies and sub-assemblies for freight wagons
- transmissions and their components
- die and open die forgings, including locomotive axles and wagons, and gear wheels.
