

Euroterminal Sławków Sp. z o.o.

Logistics

"Euroterminal Sławków" Sp. z o.o. is a logistics terminal situated at the point where the most westward section of the broad-gauge (1520 mm) and normal-gauge (1435 mm) railway line meet. This offers an excellent opportunity to developing container cargo transport between the Far East and Asia and Western Europe.

We provide transshipment and storage services on a container terminal floor with an area of more than 18 000 m² (33 000 m²) equipped with two container cranes (Q = 40 t) or on a container terminal floor of 5600 m² (where reachstackers are used). We also offer a separate yard in which empty containers are stored – a container depot.

We provide transshipment services for: containers, tanktainers, semi-trailers and swap bodies. In addition to terminal services for intermodal transport, we also render services such as: handling, securing and dispatching palletised goods, bulk goods, steel products and non-standard and oversized goods.

Our transshipment capacity is as follows: containers (180 000 TEU, ↑ 284 810 TEU), steel products (380 000 tonnes), palletised and other goods (200 000 tonnes), bulk goods – coal, coke, aggregate materials (2 000 000 tonnes), and other bulk goods – salt, biomass, grain (365 000 tonnes).

The company also provides storage services for: containers (ca. 1800 TEU, ↑ 3500 TEU), palletised goods (total storage area 8500 m²), bulk goods (110 000 m²), and steel products (8200 m²).

We also assist our customers in full customs service, crushing and sorting bulk goods, weighing wagons and trucks, ship operator's depot, repairs of containers, railway service, lease of machinery and equipment, office and storage space, and railway and road freight forwarding services in Poland and abroad.
