

Exploris S.A.

Logistics | Training

Exploris S.A. is a European logistics holding consisting of eighteen companies that represent the transport sector – seven licensed railway carriers, forwarders and companies providing training, personnel management and technical services. The flagship companies from Exploris Group are HSL Logistik and Via Cargo based in Germany, Poland, Belgium, the Netherlands, Czech Republic and Austria. On an annual basis, Exploris Group's companies transport more than 16 million tonnes of cargo using more than 70 modern electric and diesel locomotives. More than 400 people – logistics engineers, managers, transportation planners and train drivers – are involved in the daily work of the company that has been present on the market continuously for more than 16 years. We have successfully been developing innovative information technology systems to support our operations and customer service and have kept on modernising our fleet of locomotives. We offer the highest service level to our customers and will undertake even the most difficult projects. We are available on a 24/7 basis and you can find us in eight countries of the EU.

We look forward to hearing from you and cooperating with you.
