

PPUH INTERMECH Sp. z o.o.

Construction | Rolling stock

Przedsiębiorstwo Produkcyjno-Usługowo-Handlowe "INTERMECH" Sp. z o.o. is a production company representing the metal industry. Thanks to our high-skilled staff we can deliver complete projects from the concept stage to the finished product.

We offer various services, including:

- machining: cutting, burning, turning, milling, lathing and grinding
- welding
- plastic working: 3-D shaping, ring rolling, bending, cold or hot stamping
- painting
- design of instruments for machining and welding works
- design of customised hydraulic cylinders
- making pilot lots of parts and assemblies to special order
- making prototypes of drive assemblies, parts and specialist instruments.

P.P.U.H. Intermech offers the following range of products:

- hydraulic power systems: hydraulic cylinders, hydraulic control units, oil tanks
- parts and assemblies for the railway sector, railway and tramway rolling stock: elements of rail freight bogies of Y25, Y33 type and their varieties; wheel centres and discs for ET22 and ET21 locomotives; narrow-gauge rolling stock parts; bearing housings and yokes for tramways
- parts and assemblies for construction and mining machinery: for drilling and pile driving equipment; for push-plate conveyors used in the mining industry
- special products: licence granted by the Ministry of the Interior and Administration to manufacture and sell products and technology for military or police use.

INTERMECH holds:

- DET NORSKE VERITAS (DNV) certification to produce hydraulic control equipment for different types of maritime vessels
- SEIV MIDI-PYRÉNÉES (France) certification to produce welded structures and special-purpose parts and assemblies for aircraft and maritime vessels,
- certificate of approval by SAME DEUTZ-FAHR to produce parts and assemblies for wheeled tractors,
- quality management system based on a quality manual prepared according to ISO 9001
- certification to weld rail vehicles and their components according to EN 15085-2:2007
